Thanks for stopping by or ordering in!

We are Eric and John. Long time Centretowners, excited to be opening a restaurant on our home turf. Our dream has been to open the kind of spot we would want in the community and to share it with friends, family, and neighbours from Ottawa and beyond. A place that's wholesome and comforting, that offers food and drink we're passionate about. Whether you're looking for a quick lunch on the go or making an evening of it with your favourite people, all are welcome!

Opening during a pandemic? That's bonkers! Like everyone else living through these strange times, we had to re-assess and adjust our expectations for our planned opening. We thought we could contribute to the community and local economy with contactless take-out and delivery. And if it means we can diversify the safe food and drink options available, it ultimately helps reduce crowding at the LCBO and grocery stores. We also offer a discount if you're an essential service worker (use code [essential](#)).

While our end goal remains the same, in the meantime we are closely following the guidelines and best practices set out by health officials. In order to give folks a little taste of what's in store, we have a selection of items that we feel represent us. Wholesome, happy food with a focus on fresh ingredients. All made in-house with care. Along with food, we are also proudly offering up some of our favourites from the wonderful world of Ontario craft beer and wine.

Thank you so much for checking us out and we hope to see you in person one day, when it's safe to do so!

Stay safe and in good spirits,
John and Eric
